Education

University of California, Los Angeles (UCLA)

M.S. IN COMPUTER SCIENCE

Los Angeles, California

Sep. 2023 - June, 2024

University of California, Los Angeles (UCLA)

B.S. IN COMPUTER SCIENCE, GPA 3.6

Los Angeles, California

Sep. 2019 - June, 2023

- Coursework: Neural Networks and Deep Learning, Operating Systems, Algorithms, Networking, Programming Languages, Computer Vision, Machine Learning, Computer Systems Architecture, Compilers, Security, Graphics, Artificial Intelligence
- Dean's Honors List in Winter 2020/21, Spring 2022

Work Experience

Ciena

EMBEDDED SOFTWARE ENGINEERING INTERN

Working on compiling Rust to the ARC processor using `rustc_codegen_gcc`.

Petaluma, California

July 2023 - Sep. 2023

Tibit Communications (acquired by Ciena)

FIRMWARE ENGINEERING INTERN

- Implemented IEEE 802.1X Key derivation function (KDF) to generate keys necessary for MACsec (IEEE 802.1AE) Key Exchange (MKA).
- Improved internal tools to increase engineer productivity as well as adapted internal tools to be customer facing which simplified and extended configuration of Tibit's devices.
- Created a calibration model tester in Python to compare different calibration models which were used to optimize calibration times.

Petaluma, California

June 2022 - Sep. 2022

HydroPoint Data Systems

ENGINEERING INTERN

- Utilized C# machine learning libraries to help them optimize their water leak detection capabilities.
- Successfully handled my workload for both this internship and 4 summer courses at UCLA.

Petaluma, California

Jan. 2021 - Sep. 2021

Projects

Insta-Chef (CS 35L Project)

FULL STACK DEVELOPER

- Created a recipe-finding website that leverages ingredients you have in your kitchen using React and Firebase Realtime Database.
- Led the design of a user-specific Pantry where the user can search for recipes based on a selected ingredient.
- Styled the Login and Pantry pages to make them accessible for mobile users.

Los Angeles, California

Feb. 2021 - Mar. 2021

Micromouse (IEEE at UCLA Project)

IEEE STUDENT BRANCH AT UCLA

- Designed a PCB which detects walls using IR sensors and receivers and sends that data to an STM32 microcontroller.
- Designed a maze-solving algorithm that used flood fill to navigate any unknown maze

Los Angeles, California

Oct. 2020 - Mar. 2021

IDEA Hacks

CORPORATE COMMITTEE MEMBER

- Connecting and securing sponsorships with tech companies such as Qualcomm, to fundraise for the largest hardware hackathon on the west coast, IDEA Hacks.

Los Angeles, California

June, 2020 - Jan. 2021

Skills

Programming C, C++, Java, Python, JavaScript, Arduino, R, Bash

Technologies PyTorch, React, Firebase, Git, TensorFlow, LaTeX

Honors & Awards

Eagle Scout

BOY SCOUTS OF AMERICA, TROOP 9

Petaluma, California

January 2017
